Lasetnet for Dynamics 365

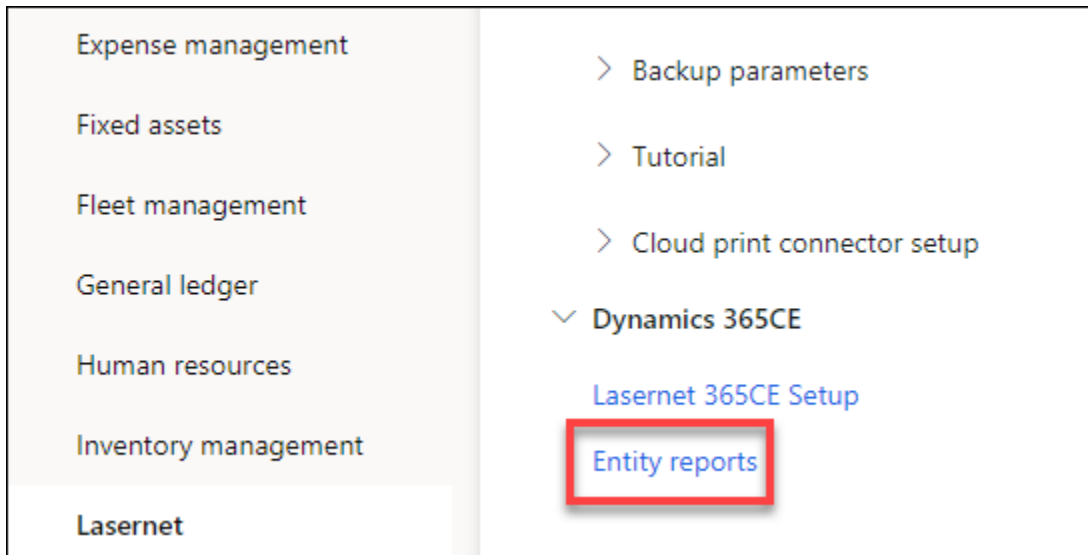

When a user attempts to print a report from the D365 Customer Engagement application, the following error message may occur:

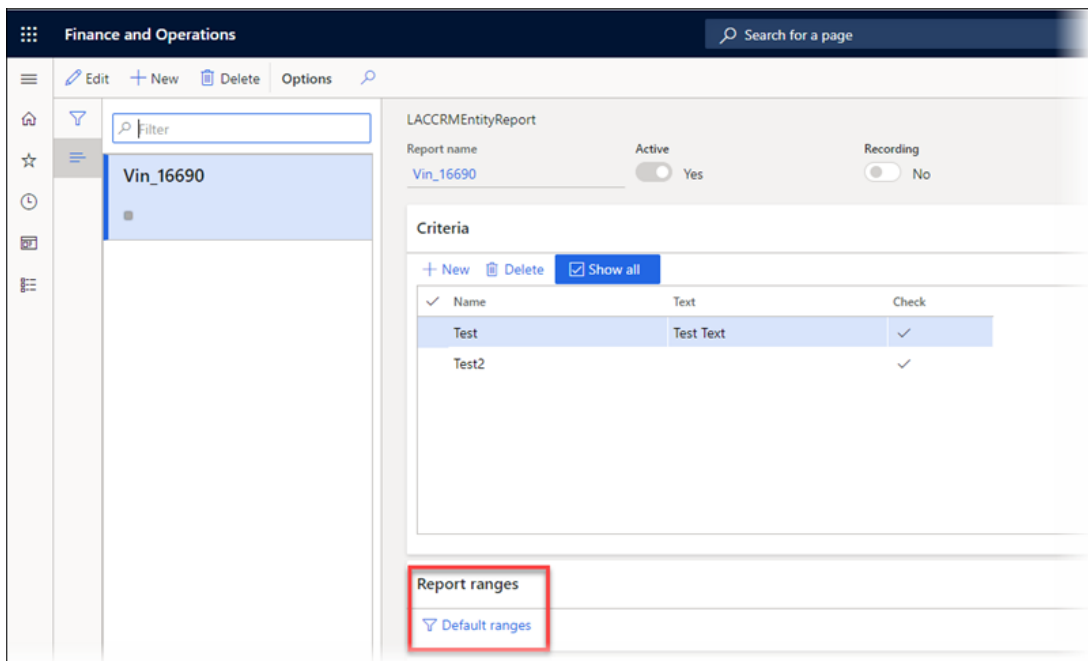

Solution/workaround

Follow these steps to solve this issue:

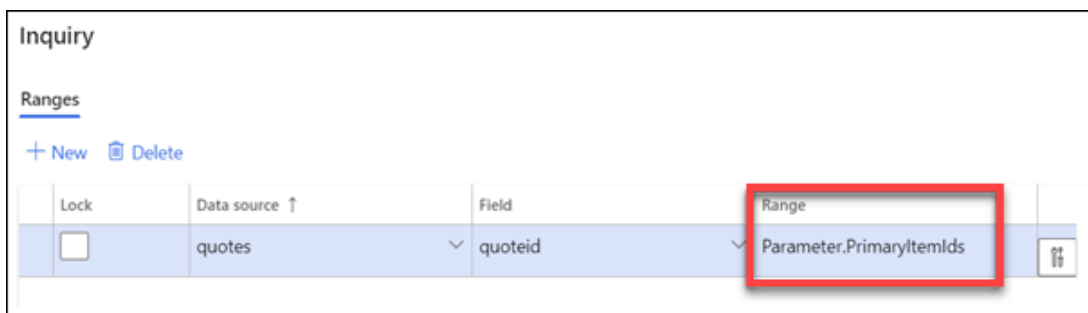

1. Open D365 FO and navigate to **Lasetnet > Entity reports**.

2. Click **Default ranges** under *Report ranges*.

3. Validate that it's the **PrimaryItemIds** that is being used in the Range column. If not, you can add it.

The error message will no longer occur.
