

## Error message during Compiling: "System.Web.MimeMappings is not a class."

- 2023-12-06 - Comments (0) - AX 2012 FAQs

This article describes a solution for the following compilation error that can appear in AX 2012:

Error

System.Web.MimeMapping is not a class.

Description	Path	Line	Method/Property name	Diagnostic ID
 System.Web.MimeMapping is not a class.	\\Classes\LACAttachmentFile\getContentType	3	getContentType	Err:76

### Resolution

Lasernet needs at least .net version 4.5 in order to use the Attachment and loading of AOS / Client printers functions.

Please install .net version 4.5 or newer and then compile again.

Additional information on system requirements can be found in the [Lasernet Connector for Microsoft Dynamics AX 2012 - Installation Manual](#).
