

How to Export a Report Backup in the Lasetnet Connector

Nicole Ojeda - 2023-12-01 - Comments (0) - Lasetnet FO Connector FAQs

Lasetnet for Dynamics 365

The Lasetnet Connector for D365FO allows you to export specified reports. This export can then be imported to a different legal entity or a different D365FO environment. To export a report backup, follow these steps:

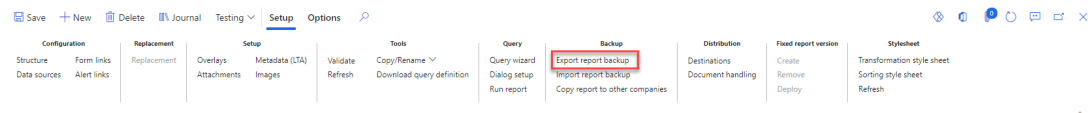

1. Navigate to **Lasetnet > Reports** and select the report you would like to export from the navigation list.

The screenshot shows the 'Reports' configuration page in the Lasetnet connector. The 'Backup' group is selected in the top action pane, and the 'Export report backup' option is highlighted with a red box. The main area shows a list of reports and a configuration panel for the selected report.

Origin	Report name	Report design name
Query	SalesInvoiceReplacement	Custom query: SalesInvoiceHea...
SSRS report	FreeTextInvoice replaced with Fr...	Report
Query	FreeTextInvoiceReplacement	Custom query: FreeTextInvoice
SSRS report	Giro	GiroFIK
SSRS report	InventTransferShip replaced wit...	Report
Query	InventTransferShipReplacement	Custom query: InventTransfer
SSRS report	ProjInvoice	Report
SSRS report	PSAProjInvoice replaced with PS...	Report
Query	PSAProjInvoiceReplacement	Custom query: ProjInvoiceLO...
SSRS report	PurchPurchaseOrder replaced w...	Report
Query	PurchPurchaseOrderReplacement	Custom query: PurchPurchase
SSRS report	SalesConfirm replaced with Sale...	Report
Query	SalesConfirmReplacement	Custom query: SalesConfirm
SSRS report	SalesInvoice replaced with Sales...	Report
Query	SalesInvoiceReplacement	Custom query: SalesInvoice
SSRS report	SalesPackingSlip replaced with S...	Report
Query	SalesPackingSlipReplacement	Custom query: SalesPacking
SSRS report	SalesQuotation replaced with Sa...	Report
Query	SalesQuotationReplacement	Custom query: SalesQuotation
SSRS report	WMSpickingList_OrderPick rep...	Report
Query	WMSpickingList_OrderPickRepla...	Custom query: WMSpicking

2. On the action pane within the **Backup** group, select **Export report backup**.

The screenshot shows a close-up of the top action pane. The 'Backup' group is selected, and the 'Export report backup' option is highlighted with a red box.

The *Export Report Backup* dialog will open.

3. Check any additional reports you want to include in your export from the **Selected Reports** list.

You may want to select both the Report and the custom query report if exporting a replacement query.

Export report backup

	PSAProjInvoiceReplace...	Custom query: ProjInv...
	PurchPurchaseOrder.R...	Report
	PurchPurchaseOrderRe...	Custom query: PurchP...
	SalesConfirm.Report	Report
	SalesConfirmReplacem...	Custom query: SalesCo...
