Lasename Connector for Microsoft Dynamics 365 for Operations and Finance version 7	Q4 2024	Q1 2025	7.1		

Note

The phrase "End of development" indicates the date when all code development, including new features, updates, bug fixes, and security updates, ended.

The phrase "End of support" indicates the date when those using a certain version of the software will receive assistance but no receive bug or security fixes/ enhancements. Consequently, any issues that arise may require an upgrade to be resolved. Product documentation relating to these releases will still be available via our support portal but will no longer be actively reviewed, improved, or maintained.
