

Lasetnet FO Connector 6.15 Prerelease

2021-07-27 - Alex Clemons - Comments (0) - Lasetnet FO Connector News

Update in relation to Lasetnet FO Connector and new Lasetnet FO Connector configuration for Lasetnet 10

The next release of Lasetnet FO Connector is planned for **Thursday 5th of August 2021**, unless we get any critical issue(s).

Currently, we are preparing a new demo setup for Lasetnet FO Connector and Lasetnet 10 and will inform you once this is ready for download in the Formpipe knowledgebase.

We will also inform you if a new version of Lasetnet FO Connector (6.15.0) is required or if it's enough to apply (merge) new objects into the configuration (existing/demo) when using Lasetnet 10.

Enhancements - Lasetnet configurations for LAC365FO

Case no.	Description	Ticket no. Added
223812@LNConfig365FO	Adjustments to the Lasetnet configuration - Print of SSRS files	#17638
