- Click to download the [Lasetnet FO Connector 6.18.5 Installation Package](#)
- Click to view the [new features, enhancements, and fixes](#) in more detail.

Note

- The packages are for Dynamics 365 for Finance & Operations Platform Updates PU59 and PU60.
- Microsoft recommends that you use an ISV/LAC-package matching the build or PU because it could lower the memory usage. However, all packages contain the same code and are compatible with different versions.
- Deployments or installations of Lasetnet Connector packages are forward compatible; for example, it is not possible to deploy or install a Lasetnet Connector package for PU60/10.0.36 when using Dynamics 365 for Finance & Operations PU59/10.0.35.
