### **Lاسernet Release Version 8.16**

**Release date:** 15th May 2020

Not released but included in version 8.17 Lاسernet Form Editor.

### **New Features and Fixes**

The purpose of this section is to outline the new features and fixes of the components of Lاسernet Version 8.16.

#### **Lاسernet Form Editor**

- Fixed an issue where text could be missing in overlays after migration from an older version.
- Added support for absolute paths as a part of the file name when inserting images from SharePoint.
- The expression evaluator evaluation for form criteria returned a wrong result for specific cases.
- The inactivated pattern did not allow further pattern matching for the next pattern.

#### **Lاسernet XML Transformer Editor**

- The XPath for an XML Transformer form criterion was not handled as expected for XML attributes. This is now fixed.
