Lاسernet Release Version 8.18

Release date: 17th October 2020

New Features and Fixes

The purpose of this section is to outline the new features and fixes of the components of Lاسernet Version 8.18

Mail Input

- Added support for moving an incoming email to a processed folder for IMAP.
- Added logging for checking Mailbox for new items via IMAP and POP3.

Outlook Mail

- Changed prompt from consent to login.
- Added support for reading signed emails.
- Added retaining of refresh tokens obtained during processing, allowing restart of service, and patch/deployment of revisions with older refresh tokens.
- Fixed an error where polling mails in other folders than Inbox in Shared Mailbox.
- Support for incoming emails that contain a null character in the email subject field instead of an empty string.
- Fixed a service stop if the connection to graph microsoft.com would attempt to fail because of a time-out.
