

Lasetnet for Dynamics - CE Installation Guide: Released!

2023-08-16 - Alice Petruzzella - Comments (0) - Lasetnet CE Connector News

Lasetnet for Dynamics 365

We are happy to announce that the new Installation Guide for the Lasetnet Connector for Microsoft Dynamics Customer Engagement has been released!

The Lasetnet for Dynamics solution includes a versatile connector for linking FO and CE. The Lasetnet CE Connector allows users to run Lasetnet reports from within CE using all the functionalities of FO, including archiving, destination setup, query building, automation, etc.

Moreover, the connector allows users in both systems to run reports using a combined dataset from both environments, to provide a more complete reporting solution.

The Installation Guide will walk users step-by-step through the process of installing and configuring the Lasetnet CE Connector so that they may be able to make the most out of this powerful tool.
